

MBA Training

Working at Height & Fall Arrest (229998)

Content:

- Unit Standard 229998
- Objectives & Definitions
- Legal Requirements when working @ Heights Construction Regulations – Fall Protection Responsibilities
- General Working @ Heights Principles
- Before Working @ Heights
- Fall Arrest Systems / Practical Assessment Who Qualifies to Work @ Height
- Working @ Height Structures
- Group Activity & Practical Assessment
- Course Evaluation

Learners need to have a valid medical stating they are medically fit to work at height.

Upon successful completion of the assessment, delegates will receive a certificate of competence, accrediting them to work at height.

Each delegate will receive a custom designed training manual to facilitate the training process – filled with drawings, diagrams, etc
